

Cheap solar panels in Greenland

Does Greenland have a clock?

In Qaanaaq, Greenland, residents live between the gargantuan Greenland Ice Sheet and the frigid waters of Baffin Bay. (Bonnie Jo Mount/The Washington Post) QAANAAQ, Greenland -- Out on the ice, Toku Oshima often says, "there is no time." No calendar but the migrations of sea creatures. No clock but the cadence of the tides.

Can solar panels be financed?

Solar panels can be financed in multiple ways. Paying in cash will get you the best price and provide the best long-term electric bill savings. If you don't have the upfront cash, you can take out a personal loan, home equity line of credit or use a solar loan offered by your solar company.

Are solar panels a good investment?

If you don't have the upfront cash, you can take out a personal loan, home equity line of credit or use a solar loan offered by your solar company. Because you have to pay interest and additional fees, solar panels purchased with loans have lower lifetime savings but are still a worthwhile investment.

Can I go solar with a personal loan?

You can choose to go solar with a personal loan, but many installers offer solar-specific loans through special providers such as Mosaic, Sunlight Financial, Goodleap or Enfin. Recent interest rate hikes have bumped solar loan APRs above 5.99%, but we have seen some providers offer as low as 30-year, 3.99% loans.

Are old ways still alive in Greenland?

In the rugged mountains and frozen fjords that surround Greenland's northernmost town, the old ways are still alive. But those ways are under threat. Human-caused climate change has scrambled weather patterns and pushed the rhythms of animals out of sync with the ice and sun.

Do solar panels have a warranty?

We recommend using an installer with at least a ten-year labor warranty. Some installation companies, like SunPower, include a system performance guarantee. This promises you'll get a certain amount of electricity from your solar panels and is an excellent added protection.

This, in part, explains why Greenland's 5 hydroelectric dams and 13 solar panel farms are concentrated in the more populous southwestern part of the country, where they can benefit the largest ...

Cheap solar panels retain around 80% output at best. Also look at the product warranty, which promises to replace your solar panels for free if they malfunction due to material defects or poor workmanship. Some cheap solar panels have product warranties as short as 10 years, but we recommend looking for 25-year coverage. ...
