

Christmas Island Power Station. 2012 - Design, specification, tender technical evaluation and technical assistance during construction of the extension to Christmas Island Power Station. This involved four Wartsila 2.6MW diesel ...

We work with renewable energy production, management of waste residues and water treatment solutions, helping islands to reach carbon neutrality. With over 20 years of experience, Island Power Solutions is a specialized company of ...

Island Power Solutions develops tailor-made solutions for off-grid systems combining green energy production and storage. At Island Power Solutions we work closely with partners and local communities all to create efficient systems that help islands effectively access all their resources to generate cleaner and reliable energy.

Our services includes solar and battery projects, commercial and industrial electrical installations and maintenance, emergency backup power systems, civil works, trenching, and excavation, service location and survey, and assistance with other infrastructure projects including fibre optic and communications for government agencies.

On Christmas Island an environmental research project is transforming former mining sites into agricultural land. The Seed clearing shed required for the land transformation are in a remote off-grid location resulting in high operational costs for the diesel generators that power them .

Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park. We installed solar and battery storage systems at two sites on Christmas Island for Parks Australia to provide clean power to ...

Christmas Island Power Station. 2012 - Design, specification, tender technical evaluation and technical assistance during construction of the extension to Christmas Island Power Station. This involved four Wartsila 2.6MW diesel generators installed in acoustic enclosures, fuel farm, generator switchboard, Wartsila/PLC control system integrating ...

Equipment and components designed to withstand the harsh coastal environment conditions of Christmas Island. Individual generator halls supplied with filtered ventilation air and the electrical control room temperature-controlled air conditioning.

Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park. We installed solar and battery storage systems at two sites on ...

Island Power Solutions works in cooperation with governmental agencies, foundations, NGOs and with local businesses and communities to build a more sustainable future. We provide innovative renewable energy solutions, guaranteeing value to our clients through reliable and ...

We work with renewable energy production, management of waste residues and water treatment solutions, helping islands to reach carbon neutrality. With over 20 years of experience, Island Power Solutions is a specialized company of Universal Kraft, ...

Island Power Solutions develops tailor-made solutions for off-grid systems combining green energy production and storage. At Island Power Solutions we work closely with partners and local communities all to create efficient ...

As part of a scientific research focusing on agriculture on exhausted mining areas, a seed cleaning shed on Christmas Island is being powered by solar+storage. The switch from polluting diesel has not only brought a low maintenance, silent and environmentally friendly solution to this remote location, but also lowered operational costs nearly ...
