

Features of our products:

- o High conversion efficiency mono/poly-crystalline amorphous silicon solar cells
- o Modules incorporate high performance bypass diodes to minimize the power drop caused by shading
- o High transmittance, low-iron tempered glass
- o High performance EVA encapsulant to prevent destroying and water.

CNBM can provide solar panel, solar battery, lithium battery, ESS system, which convert sunlight into electricity for residential, commercial, and utility-scale power generation. The company is committed to develop and provide the world with clean and renewable energy to ease the energy shortages as well as human's impact on the environment.
