

Advanced Thermovoltaic Systems specializes in the discovery of all temperature heat to power at a megawatt-scale. Its patented, disruptive, heat-to-value solution transforms previously rejected heat to enterprise competitive advantage. Industries. Energy, Renewable Energy. Stage. Seed. Employees. 1-10.

Advanced Thermovoltaic Systems (ATS) has developed a simple, safe, and scalable technology to capture waste heat and convert it into electricity, offering a game-changing solution for heavy industries like cement and steel production.

One of the 20 winners was the Advanced Thermovoltaic Systems (ATS) team, including Jake Perez, a RASEI alum. The ATS team was awarded the distinguished 2024 Earthshot "Fix Our Climate" prize for their transformative efforts against climate change. Chosen from 5,342 nominations across 141 countries, this prestigious award was recently ...

Advanced Thermovoltaic Systems has received \$1m funding from The Earthshot Prize to scale its technology which captures industrial waste heat and converts it into electricity. The winner of the "Fix our Climate" category believes its technologies have the potential to save "gigatonnes" of carbon dioxide (CO2) and could be a "game ...

Advanced Thermovoltaic Systems waste heat collection unit. Photo: Advanced Thermovoltaic Systems. The five winning projects of this year's Earthshot Prize have been announced. They include a technology designed to capture waste heat and convert it into usable and clean electricity, and a company providing sustainable refrigeration systems to ...

Advanced Thermovoltaic Systems, High Ambition Coalition for Nature and People, Keep IT Cool, Altyn Dala Conservation Initiative and Green Africa Youth Organization (GAYO) revealed as 2024 Earthshot Prize Winners during star-studded ceremony broadcast live across 50 African countries Each Winner to receive \$1 million to accelerate and scale the ...
