Why is ACWA Power investing in Africa?

Recent agreements with the Egyptian and Tunisian governments underscore ACWA Power's commitment to advancing green hydrogen projects and expanding its impact in Africa. Our investments in Africa reflect our commitment to sustainable growth through strategic partnerships and leading-edge technology.

Who is ACWA Power?

ACWA Power is not only a financial leader but also a responsible partner and a pioneer in shaping Africa's energy and water future. We are eager to invest further where opportunities are most promising, bringing positive change to communities across the continent.

Will ACWA Power triple its business size in 2023?

With an ambitious plan to triple its business size announced in 2023, ACWA Power continues to expand across the world, driven by its mission to deliver affordable and reliable energy solutions that foster economic and social development.

How many people work at ACWA Power?

We employ more than 4,000 people, with ~60% local employment. ACWA Power's portfolio, with an investment value of USD 94 billion, can generate 65.6 GW of power and produce 8.0 million m<sup>3</sup> /day of desalinated water.

Is ACWA Power a green hydrogen company?

Today, ACWA Power operates a global portfolio of 65 GW and has achieved record-low costs in power generation, water desalination, and potentially in green hydrogen with production from NEOM Green Hydrogen Company (NGHC) expected by 2026--vital for ensuring affordable and accessible solutions across the world.

Could the Congo become an electricity exporter?

Almost all electricity generation today comes from hydropower and the Inga project has the potential to provide much more. If network constraints are addressed, Democratic Republic of the Congo could become an electricity exporter.

ACWA Power has signed a \$4.85bn power purchase agreement with Uzbekistan's national electric grid for the Aral 5GW wind power project. ... it is expected to be deployed in five phases and generate around 18,000GWh of clean energy annually while offsetting 247 billion tonnes of CO<sub>2</sub> emissions during its lifetime.

The Republic of Congo will host the first-ever Congo Energy & Investment Forum on 25-26 March 2025 - one of Africa's largest energy events to date and the first international conference to take place in the Congo in over five years.

## Congo Republic acwa energy

Acwa Power has achieved financial closure for the \$533m Tashkent Riverside project in Uzbekistan. The project encompasses a 200MW solar photovoltaic (PV) plant and a 500 megawatt hours (MWh) battery energy ...

The Central Energy Fund and Saudi Arabia's ACWA Power have signed an agreement to co-invest in the 100MW Redstone concentrated solar thermal power (CSP) plant in South Africa's Northern Cape Province. Construction on the new CSP plant is set to begin later this year. Once operational, the plant will supply power to 210,000 homes in South ...

Power plant developer ACWA Power and the government of Azerbaijan have signed an agreement to potentially deploy a battery energy storage system (BESS) in the central Asian country. The Azerbaijan Ministry ...

Saudi Arabian energy company ACWA Power is set to raise up to SAR4.5bn (\$1.1bn) through a planned offering of 81.2 million shares. Free Report Delve into the renewable energy prospects for Morocco
