

The Ministry of Climate Change, Environment and Energy will commence the application process for solar system installations in households under the "Magey Solar Programme" on Monday. This programme aims to ...

The government has opened applications for the "Magey Solar" project, a residential initiative that will install solar panels on rooftops to support the shift toward renewable energy.

Offshore floating solar platforms allow near limitless renewable energy expansion. The solar PV system at the LUX* Resort utilises all the available roof space and is expanded at sea with floating offshore SolarSea ® platforms to reach the desired solar power production capacity.

Fenaka, in partnership with the Ministry of Climate Change, Environment and Energy, has officially launched the Magey Solar program, an ambitious initiative aimed at harnessing solar energy by installing photovoltaic (PV) systems on the rooftops of private homes across the Maldives.

Offshore floating solar platforms allow near limitless renewable energy expansion. The solar PV system at the LUX* Resort utilises all the available roof space and is expanded at sea with floating offshore SolarSea ® platforms to reach the ...

The Ministry of Climate Change, Environment and Energy will commence the application process for solar system installations in households under the "Magey Solar Programme" on Monday. This programme aims to reduce electricity costs and promote the efficient use of energy resources in the Maldives.

Environment Ministry has opened applications for the installation of rooftop solar panels at households as part of "Magey Solar" program. The program, funded by the Asian Development Bank (ADB), is a joint initiative of the Ministry and Fenaka Corporation...
