What is a Corvus orca ESS?

The Corvus Orca ESS is ideal for applications that need both energy and a high amount of power, moving large amounts of energy at an inexpensive lifetime cost per kWh. The Corvus Orca is suitable for both hybrid electric and all-electric marine applications and for use in the Corvus BOB, an all-in-one, installation-ready battery room solution.

How does Corvus Energy's Orca Energy Storage System work?

Corvus Energy's Orca energy storage system design achieves true cell-level thermal runaway isolation, meaning that adjacent cells stay cool without the need for expensive active cooling.

Which vessel types are suitable for the Corvus orca ESS?

Typical vessel types suitable for the Corvus Orca ESS include: Passive single-cell Thermal Runaway (TR) Isolation Exceeds Class and Flag requirements for TR gas venting or send us a message below. Corvus Orca is the industry-leading marine battery energy storage system with the most installations worldwide.

Who is Corvus Energy?

Corvus Energy is the leading provider of marine energy storage systems, with the most maritime battery systems installed worldwide. More than 50% of the world's hybrid and zero-emission vessels are equipped with Corvus Energy battery energy storage systems.

Does Corvus Energy offer a marine battery energy storage system?

There is no one-size-fits-all solution for marine battery energy storage. Corvus Energy offers a range of energy storage systems in order to provide the right solution for every marine application. Optimize energy consumption and emissions reduction with the right battery system for each project.

The Orca ESS product line, which will make its public debut at the Electric & Hybrid Marine World Expo in Amsterdam, June 21-23, has been developed based on experience from more than 50 vessels currently utilizing a Corvus ESS, totaling over 35MWh installed and 1 million operating hours, Corvus Energy said.

Corvus Energy Storage Solutions (ESS) Corvus Orca Energy Corvus Blue Marlin Corvus Blue Whale Corvus BOB Container Corvus Dolphin Energy and Power Corvus ... installation. Features and options Corvus Orca Energy Features oHigh C-Rates -up to 3C continuous oDesigned for voltages up to 1200 VDC oLow installation and commissioning time ...

Corvus Orca Energy. Designed and built specifically for the maritime industry, the Orca ESS product line from Corvus Energy represented a shift in maritime Energy Storage when launched in 2016. No other ESS can compete with the . installation count that Orca Energy represents. Outstanding results and the highest level of safety has set the new

Winning "Innovation of the Year" at the 2017 Electric & Hybrid Marine World Expo, the Corvus Energy lithium-ion-based Orca (TM)energy storage system (ESS) stands out amongst other ESSs. "Battery technology is at the heart of electric and hybrid marine propulsion technology. Corvus is a true leader in this area," said awards panel judge Martyn Lasek, ...

Corvus Energy, the leading provider of marine battery and fuel cell systems, announced that their Corvus Orca Energy Storage System has received Type Approval from the Japanese class society, ClassNK. ... With both energy and high power, the Orca ESS system is suitable for a variety of marine applications and vessel types. No other marine ...

Orca Power ESS can charge at peak rates of 13C and continuous rates of 5C, meaning that Orca Power ESS batteries can be quickly charged from shore charging stations and via energy recovery systems. An example of a shore station ESS that takes advantage of quick discharge/charge using a Corvus ESS is the all-electric Norled ferry, Ampere. The ...

Corvus Orca BOB plug-and-play battery room The Corvus Orca BOB containers will each contain almost 1.5 MWh of energy storage capacity and be capable of "fast-charging" the Crowley eWolf tug. The Corvus ...

Corvus Orca ESS; Corvus Blue Whale ESS; Corvus Dolphin NxtGen ESS - Energy; Corvus Dolphin NxtGen ESS - Power; Corvus BOB Containerized Battery Room; ... ESS capacity: 610 kWh : Corvus product: Corvus Orca ESS: Delivery year: 2019: Ship yard: Samsung Heavy Industries : Newbuild/Retrofit: Newbuild: Vessel size: 177 m x 46 m x 16,5 m :

Corvus Energy has secured a deal to deliver a lithium ion-based energy storage system (ESS) for a new multipurpose hybrid vessel, which is set to be owned by the Norwegian Coastal Administration (NCA). The deal has been awarded by Rolls-Royce, which will equip the new OV Ryvingen vessel with Corvus" Orca Energy ESS upon delivery of the system.

"Once again we reinvent energy storage for ships," states Geir Bjorkeli, CEO of Corvus Energy. "When we launched the Corvus Orca Energy in 2016, we set a new standard for performance, safety and economics in a maritime ESS. "The Corvus Orca Energy became an enormous success when launched and is now on more than 140 vessels worldwide.

Corvus Orca Energy The Orca Energy ESS represented a shift in the maritime industry when launched in 2016. No other Energy Storage System can compete with the installation count of the Orca Energy ...

Japan's ClassNK has type-approved Corvus Energy's Orca lithium ion battery-based energy storage system (ESS) The system is the first marine battery to receive type-approval from ClassNK since the class ...

Based on extensive, field-proven experience, Corvus developed a full range of industry-leading marine energy storage systems. Learn more about our product range including the Corvus Orca, Blue Whale, Dolphin NxtGen - Energy, ...

The Blue Whale design incorporates the unsurpassed safety features from the Corvus Orca ESS, the world's most installed marine ESS, along with additional design benefits, such as optimized energy density and a flexible, modular design architecture, that make it better equipped to meet the energy demands of large vessels. ... Corvus Energy ...

This is the second article in a series highlighting the five remarkable design features incorporated into Corvus Energy's Orca(TM) Energy Storage System (ESS) product line design--a design that earned Corvus Energy the Electric & Hybrid Marine Technology 2017 Innovation of the Year award, as well as the BC TIA Technology Impact Award for Excellence ...

Bergen, Norway November 7th 2024 -- Corvus Energy, the leading supplier of zero-emission solutions for the maritime industry is proud to announce that, as of this week, Corvus Energy battery systems have cumulatively helped their customers achieve 10 million Tons\* of CO2 emissions reduced since the first installation in 2013. With shipping accounting for nearly 3% ...

With both energy and high power, the Orca ESS system is suitable for a variety of marine applications and vessel types. No other marine energy storage system can compete with the installation count.

The Corvus Orca ESS, the most installed marine energy storage system worldwide, set the industry standard for maritime energy storage reliability and safety. The Blue Whale design incorporates the unsurpassed safety features of the Orca, and additionally provides key advances required to meet the energy demands of large vessels.

This results in the segments highest performing, safest, reliable and cost-effective product-line which includes: Corvus Orca, Corvus Dolphin, Corvus Moray and Corvus Blue Whale. Orca ESS Solutions: 1. Zero emission

in port, 2. All-electric operations. 3. Environmental operations. 4. Fuel efficiency, 5. Redundancy and safer operations

Corvus Orca Energy Designed and built specifically for the maritime industry, the Orca ESS product line from Corvus Energy represented a shift in maritime Energy Storage when launched in 2016. No other ESS can compete with the installation count that Orca Energy represents. Outstanding results and the highest level of safety has set the new

Kawasaki Heavy Industries selects Corvus Orca ESS for battery-powered propulsion system on board all-electric Asahi Tanker vessel. Bergen, Norway and Vancouver, Canada - January 28, 2021 - Corvus Energy is pleased to announce that Kawasaki Heavy Industries has selected Corvus Energy to supply the energy storage system (ESS) for the first ...

Richmond, B.C - February 23, 2017 - Corvus Energy, the world's leading manufacturer of lithium-ion based energy storage systems (ESS) for maritime industries, is pleased to announce the availability of Orca LQ - a liquid cooled ...

The Orca ESS is the first-ever marine battery to get this type approval since the ClassNK rules for marine energy storage systems came into effect in January 2023. The Orca ESS system is suitable for a variety of marine applications and vessel types. To date more than 600 vessels and port applications worldwide have an Orca system installed.

Corvus Orca ESS; Corvus Blue Whale ESS; Corvus Dolphin NxtGen ESS - Energy; Corvus Dolphin NxtGen ESS - Power; ... ESS capacity: 6200 kWh: Corvus product: Corvus Orca ESS: Delivery year: 2022: Ship yard: Master Boat Builders: Newbuild/Retrofit: Newbuild: Vessel size: 25 m: Gross tonnage: 499 t: IMO no:

The Orca ESS product line, which will make its public debut at the Electric & Hybrid Marine World Expo in Amsterdam, June 21-23, has been developed based on experience from more than 50 vessels ...

Kawasaki Heavy Industries selects Corvus Orca ESS for battery-powered propulsion system on board all-electric Asahi Tanker vessel. Bergen, Norway and Vancouver, Canada - January 28, 2021 - Corvus ...

Bergen, Norway and Vancouver, Canada, November 16, 2023. Corvus Energy, the leading provider of Battery Energy Storage Solutions and Fuel Cell Systems for the marine sector, is thrilled to announce that they have been awarded Type Approval from DNV (Det Norske Veritas) for their Cyber Security Notation on the Control and Monitoring system of their Orca ...

As the leading manufacturer of energy storage systems for maritime applications, Corvus designed and built the Orca ESS solutions portfolio based on the experience from 70+ installations utilizing a Corvus ESS, totaling over 35MWh and 1 million operating hours.
