

Croatia solar lighting systems for homes in

PV module manufacturer located in Croatia, EU. We have been present in the global market since 2009 with a dedication to producing environmentally- friendly and affordable sources of energy, thereby contributing to the wellbeing of our planet

Croatia's two largest electricity companies, HEP and RWE, have begun offering to install solar power plants on rooftops of single-family homes or businesses so that Croatian citizens and residents can generate electricity for their own needs.

This 20 kWp photovoltaic system was installed by our client, Solar Projekt, in Zagreb, Croatia. The use of the Sun Ballast ballast system enabled the creation of a solid and productive installation in a short time frame.

Croatia's Environmental Protection and Energy Efficiency Fund (FZOEU) has invited applications for a total of HRK 20 million (EUR 2.7 million) in funding to back the installation of rooftop photovoltaic (PV) systems on individuals' buildings. The public call covers PV systems connected to the grid, as well as off-grid PV systems.

LED technology results with significantly lower energy consumption, lower engaged power and lower maintenance costs, enabling favorable return of investment. Smart lighting control through time and intensity light regulation ...
