

By investing in these renewable sources, Cuba could reduce its reliance on expensive imported oil, a significant economic burden, and improve energy security. To attract investment in renewable energy, the Cuban government must prioritize policy reforms that create a favorable investment climate.

HAVANA, Oct 14 (IPS) - With aging infrastructure and problems with fuel supplies, Cuba is facing a crisis in its electric power generation system, which could accelerate plans to increase the ...

The "energy emergency" declared in Cuba on Friday was no surprise to economists, energy specialists, or even the general population. They were aware that a major blackout, which would leave...

As shown by the devastation to Cuba's energy grid caused by Hurricane Ian in 2022, increases in extreme weather events can reduce the supply of fossil fuels, damage generation and grid infrastructure, reduce output, and affect the security of supply.

HAVANA, Oct 14 (IPS) - With aging infrastructure and problems with fuel supplies, Cuba is facing a crisis in its electric power generation system, which could accelerate plans to increase the share of renewable sources in the energy mix.

The current energy situation is occurring as summer looms, when temperatures above 35 degrees Celsius increase the use of fans and air conditioners, while a majority of the 3.9 million homes in Cuba depend on electricity for cooking food.

In Cuba. Cuba's Grid Goes Down. Last week, Cuba's entire electrical grid collapsed, leaving 10 million people without power. The crisis began when the Antonio Guiteras power plant in Matanzas failed, causing a nationwide blackout. Restoration efforts by the Cuban government did not prevent the grid fully collapsing again in the following days.

Of the eight million tons of fuel that Cuba consumes, some five million depend on purchases on the international market, according to De La O Levy. This situation involves "gigantic expenses, of billions of dollars," amid a significant decrease in shipments from Venezuela, the island's main supplier for years, and from other partners such ...
