Will Wärtilä supply the Caribbean island of Curaçao with a battery energy storage system?

WILLEMSTAD, Curaçao, May 20, 2024 (GLOBE NEWSWIRE) -- Technology group Wärtilä will supply the Caribbean island of Curaçao with a 25 MW / 25 MWh Battery Energy Storage System (BESS).

Who is putting a Bess order in Curacao?

The order was placed by Aqualetra, Curacao's government owned utilities company, and will be booked by Wärtilä in Q2, 2024. The BESS and the GEMS Digital Energy Platform will provide grid stability and reliability, reduce unserved energy and help mitigate the risk of brownouts and blackouts.

What is the Bess & gems Digital Energy Platform?

The BESS and the GEMS Digital Energy Platform will provide grid stability and reliability, reduce unserved energy and help mitigate the risk of brownouts and blackouts. In addition, the BESS system will allow Aqualetra to expand their renewables' vision thus allowing more renewable generation in the power system.

What will Aqualetra's Bess system do?

In addition, the BESS system will allow Aqualetra to expand their renewables' vision thus allowing more renewable generation in the power system. The BESS system will also help smooth the intermittency of renewables.

Aqualetra, the Caribbean island of Curacao's government-owned utilities company, has partnered with Wartsila to install a 25 MW Battery Energy Storage System (BESS) on the island. The BESS, in partnership with Wartsila's digital energy platform, will provide grid stability and reliability, reduce unserved energy, smooth the intermittency of renewables, and ...

Wärtilä, a global technology group, will provide Curaçao with a 25 MW / 25 MWh Battery Energy Storage System (BESS) to expand renewable energy capacity and reduce carbon emissions. This development marks a crucial move ...

Featuring A High Port Density (Including 16 X 1Gbe Ports And Three X 10 Gbe Ports), The Solution Supports Network And Hardware Redundancy With High Availability, Clustering And Dual Power Supplies. The Nsa 2700 Supports Advanced Networking Features, Such As Sd-Wan, Dynamic Routing, Layer 4-7 Clustering And High-Speed Vpn Functionality.

CARIBPR WIRE, WILLEMSTAD, Curaçao, May 20, 2024: Technology group Wärtilä will supply the Caribbean island of Curaçao with a 25 MW / 25 MWh Battery Energy Storage System (BESS). The system will enable the expansion of renewable energy capacity and the reduction of carbon
