

Why does Curacao use wind energy?

Curacao's long history with wind energy has provided it with valuable experience in integrating variable energy resources into the electrical system while also demonstrating the value of avoiding petroleum-based electricity generation.

Does Curacao need electricity?

Like many island nations, Curacao is highly dependent on imported fossil fuels (more than 95% of the island's electricity is generated using petroleum-based fuels), leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

Does Curacao have a net metering program?

In 2011, Curacao launched a net metering program for distributed wind and solar generation systems.<sup>11</sup> Residential systems smaller than 10 kilowatts (kW) and commercial systems smaller than 100 kW were eligible to participate. At the same time, large commercial customers could apply for a feed-in tariff for systems up to 1 MW in size.

How many wind turbines are there in Curacao?

Curacao features two of the oldest but most productive wind energy installations in the Caribbean. The first installation, a 12-turbine, 3-MW facility, was placed in service at Tera Kora in 1993.<sup>15</sup> This was followed by an 18-turbine, 9-MW installation at Playa Kanoa in 2000.

Why do we need a hotel in Curacao?

For the common wellbeing of our local stakeholders, AMU felt the need to engage in strengthening the competitive position of Corendon on the local market as well as in the region. A well-function and profitable hotel in Curacao will contribute to the local economy and thus the wellbeing of our island and its citizens.

Does Curacao export oil?

\*Most of Curacao's oil imports are feedstocks for the island's large, export-focused refining operation. The net export value of petroleum products totaled 14.0% of GDP in 2012. The electric utility for Curacao is the Curacao Water and Power Company, more commonly referred to as Aqualec- tra.

This photovoltaic system provides hands-on training for current and future members of the solar energy workforce. This Solar PV array training station includes a mobile workstation, PV panel set, sun simulator, panel cover, and a ...

The project The Esperamos supermarket is one of the largest supermarkets in Curaçao and is also known as "Your local Supermarket". The supermarket has environmentally friendly facilities such as vegan friendly and meat friendly products. Moreover the supermarket has realized a so called "green area", which is
