Tier 1 solar modules are considered the best solar panels due to their reliability and warranty coverage, which is why solar panels with Tier 1 status perform the best in this category. Cost per watt (20 points): The cost of solar panels is one of the most important factors, as the price can range from \$2.50 per watt to well over \$3 per watt.

The cheapest solar panel systems also tend to be the least efficient and generate less electricity, so investing in a high-quality solar panel system is advisable. These systems will be at least 20 per cent efficient and usually come with a guarantee of 85 per cent of their original efficiency after 25 years.
