

Who is LTI ReEnergy cleantech?

LTI ReEnergy CleanTech GmbH is a leading German automation company group founded 50 years ago and has started to be active in the renewable sector in wind energy since 1999 and solar energy since 2007.

How can res support the energy transition of Cyprus?

The combination of RES, with the rapidly evolving energy storage technologies, make this goal achievable, even for Cyprus. The goal of the Cyprus Energy Agency for the period 2020-2030 is to study energy storage solutions and to promote policies that will support the Energy Transition of Cyprus in an environmentally sustainable way. &quot;

Can a long-term energy planning model be used in Cyprus?

In order to examine options for economically optimal deployment of renewable energy in Cyprus under different scenarios, and to understand the potential impact of key policy decisions on the power generation mix, a long-term energy planning model of the current power system in Cyprus was developed.

How will Cyprus' energy sector develop in the coming decades?

Cyprus, a European Union member state since 2004, is at the crossroads of determining how its energy sector, and particularly the power sector, should develop in the coming decades. The island country currently depends on imported oil to meet most of its growing energy needs.

What is the goal of the Cyprus Energy Agency?

The goal of the Cyprus Energy Agency for the period 2020-2030 is to study energy storage solutions and to promote policies that will support the Energy Transition of Cyprus in an environmentally sustainable way. &quot; Renewable Energy Sources in Cyprus - Sponsorship plan for the promotion of RES and energy saving - Photovoltaic Systems.

How will Cyprus achieve a higher share of renewables?

Cyprus has set out to attain a higher share of renewables, and this roadmap helps to assess optimal investment strategies in the power sector. Solar PV and wind power will play a major role in the roadmap to 2030. Roadmap findings will play an important role to revise existing energy policies and develop new ones.
