Our energy solutions cover various sectors, from light industry to specific infrastructures such as health and data centers. Thanks to our expertise, we offer tailor-made solutions and efficient after-sales service.

Is the Democratic Republic of the Congo an energy exporter?

One of the Inga dams, a major source of hydroelectricity in the Democratic Republic of the Congo. The Democratic Republic of the Congo was a net energy exporter in 2008. Most energy was consumed domestically in 2008. According to the IEA statistics the energy export was in 2008 small and less than from the Republic of Congo.

When will DR Congo's solar power plants be built?

The plants are to be built by the Moyi Power joint venture and are expected to be completed within 18 months after the start of construction. According to the latest figures from the International Renewable Energy Agency, DR Congo only had 20 MW of installed PV capacity at the end of 2020.

Is Congo energy 100% Congolese?

The head of its Congolese branch, Yvonne Mbala, had spoken about the idea as early as 2019. It would allow the oil company to utilize gas that is currently flared from its offshore oil fields. According to our sources, Congo Energy - which claims to be 100% Congolese - is led by NSM, an engineering company owned by entrepreneur Jean-Michel Ghonda.
