

Who is Das energy?

Welcome to DAS Energy in Wr. Neustadt Our expertise lies in the field of green technology, with a clear focus on the development and manufacturing of lightweight and flexible photovoltaic modules.

Where are Das energy photovoltaic modules made?

Since 2016, the high-quality DAS Energy photovoltaic modules have been manufactured at the site in Wiener Neustadt, Lower Austria and are distributed worldwide. In the process, the technology is constantly being further developed in the research and development center. The production capacity is currently 55 megawatts per year.

Where can I find Das energy PV modules?

All currently available DAS Energy PV modules can be found in the DAS Kraftwerk webshop. Not every roof is dependent on light photovoltaic modules - DAS Energy also offers conventional glass modules for photovoltaic projects in every size and performance class. 12x2M project module - specially designed for standing seam rooftops

How many megawatts a year does Das energy produce?

In the process, the technology is constantly being further developed in the research and development center. The production capacity is currently 55 megawatts per year. DAS Energy founder and CEO Christian Dries has a background in the aviation industry, having founded Diamond Aircraft and running the enterprise successfully for many years.

Where are Das energy system engines being overhauled?

Das Energy System has started the overhaul of 2 engines in Farafra, Egypt. Das Energy System has started the overhaul of 2 engines in Farafra, Egypt. Below are the some photos from our ongoing installation work in Myanmar.

DAS Energy is a green tech company specialising in photovoltaic systems for all types of roofs with low weight-bearing capacities. With a clear focus on development and innovation, the company combines state-of-the-art glass fibre materials used in aircraft construction with highly efficient monocrystalline silicon cells at its production site ...

DAS Energy - Photovoltaik-Anbieter aus Österreich. Leichte & flexible Photovoltaikmodule, Made in Austria. Photovoltaik Großanlagen mit geringer Traglast für alle Dacharten - Industrie- & ...

Since 2024, our sales and installation partner, DAS Kraftwerk GmbH, has been working with us to plan and install your DAS Energy PV system. Our flexible solar modules are particularly suitable for roofs with limited load-bearing capacity, as well as for foil and bitumen roofs.

This made it possible to produce the lightest photovoltaic modules on the market, which at the same time guarantee a service life of more than 40 years. Since 2016, the high-quality DAS Energy photovoltaic modules have been manufactured at the site in Wiener Neustadt, Lower Austria and are distributed worldwide.

We want to take clean energy where it is needed - globally. In order to meet our stringent quality demands, we rely on a strong network of sales partners. The DAS Energy partner network is on hand to provide you with the ideal solution for your photovoltaic system.
