

Do the rooftop photovoltaic panels need to be cleaned

Do solar panels need cleaning?

There are some instances where solar panels might need cleaning, but most of the evidence says solar panels are self-sufficient and low-maintenance. We'll get to the best way to clean your solar panels in a minute.

Is it safe to clean solar panels from the ground?

Yes, and it's much safer than attempting to climb a ladder. Here's a step-by-step guide to cleaning your solar panels from the ground: 1. Switch off the entire solar PV system. Your solar PV system manual will tell you how to do this. 2.

How to clean a solar panel?

Many cleaning products are too abrasive for solar panels or may leave a residue that blocks sunlight, so you should choose these carefully. Try mixing a mild detergent in water, slowly adding more cleaner if you need more cleaning power. The last step in solar panel cleaning is to dry the glass and review your work.

How often do solar panels need to be cleaned?

Your panels need cleaning every five years, on average, unless they get particularly dirty for some reason. If you live by the coast for example, you might need to clean your panels more often, since the sea air can cause salt to build up on them. The most effective way to clean your solar panels is with a hose (from ground level).

Do solar panels need to be cleaned after a downpour?

Whether you have a rigid rooftop array or a series of portable solar panels, it's best to keep cleaning to a bare minimum. While rooftop panels should be fine after a downpour, call a cleaning service if in doubt. For your portable panels, keep it simple with water, and a soft cloth.

Should you hire a professional solar panel cleaning service?

If your solar panels need a thorough clean and you know you won't be able to get it done from the ground, then bring in the pros. Professional solar panel cleaning services have the training, kit and insurance to clean your panels to a high standard in an hour or two.
