Who is GreenGo energy?

GreenGo Energy is the go-to service provider and partner for institutional investors and investment funds that aim to unlock the value in renewable energy. Feel free to contact us about details and specific cases. "We develop green energy solutions of the future together with ambitious investors."

How much power does GreenGo use?

The project will use more than 10TWh of surplus power to build a large-scale desert farming industry. It will generate 70 million tonnes of desalinated water each year to support farming - three times what is used by the project to produce green fuel. GreenGo submitted the application in late November 2023.

How much water does GreenGo generate a year?

It will generate 70 million tonnes of desalinated water each year to support farming - three times what is used by the project to produce green fuel. GreenGo submitted the application in late November 2023. The ministry has expressed an interest and the company expects approval in the first quarter of 2024.

Which projects are part of GreenGo energy's megaton project?

The projects are Stovstrup, Hemmet-Sønder Vium, Nørhede-Hjortmose and Vennervej, which are all part of GreenGo Energy's Megaton project. We are thrilled to announce our expansion into France, a significant milestone in our mission to drive forward the global energy transition.

GreenGo Energy est une entreprise innovante de technologie verte danoise, établie au Danemark, en Suède, en Allemagne, en Pologne, au Maroc et aux États-Unis. Depuis 2011, GreenGo Energy travaille à l'accélération de la transition technologique grâce à un modèle économique novateur et modulable fondé sur l'énergie renouvelable.

GreenGo Energy has recently had four of its energy projects selected by the Council of Ringkøbing-Skjern Municipality for further processing. These projects, including Stovstrup, Hemmet-Sønder Vium, Nørhede-Hjortmose, and Vennervej, are all part of GreenGo Energy's Megaton project. These energy parks aim to supply renewable energy to the ...

GreenGo Energy är vi mycket specialiserade på solenergi- och energilagringssystem. Vi har kompetens att utveckla och bygga skräddarsydda sol- och energilagringssystem, vilket säkerställer hög och stabil avkastning för våra kunder. Vi hanterar hela processen från början till slut, och all relevant kompetens finns ...

GreenGo Energy firar den senaste solparken som vi med och driver den närmast omständligen framåt. Den senaste solparken utvecklad av GreenGo Energy har nu påbörjat

# Dominica greengo energy

i Odense kommun Parken har en kapacitet på 32 MWp, hvilket motsvarer at drive 11 000 husholdninger. GreenGo Energy, en nøkkelaktør

GreenGo Energy og Doral Energy har vundet auktionen for deres projekt M110, et solpark-projekt i Danmark, der vil producere 60 MWh om året. Dette vil være tilstrækkeligt til at dække behovet for grøn strøm til 18 800 husholdninger i Danmark. Det vil bidrage til at reducere CO2-udledningen og fremme den grønne omstilling.

GreenGo Energy er et fleksibelt og hurtigt reagerende firma, der sætter fokus på samarbejde og innovation. I øjeblikket har vi mere end 110 medarbejdere på vores projekter i Danmark, Sverige, Polen, ...
