businesses in the global energy sector, ...

Drax Group plc, trading as Drax, is a power generation business. The principal downstream enterprises are based in the UK and include Drax Power Limited, which runs the biomass fuelled Drax power station, near Selby in North Yorkshire. The Group also runs an international biomass supply chain business.

4 ???&#0183; UK-based renewable energy leader Drax Group (Drax), and Pathway Energy LLC (Pathway), a carbon negative energy company, have reached heads of terms on a multi-year deal that could see Drax supply over 1 million tonnes of sustainable biomass pellets each year to Pathway's proposed sustainable aviation fuel (SAF) plant on the US Gulf Coast.

Christmas Island: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

Drax supplies renewable source power to over 165,000 businesses and organisations across the UK, including electricity from Drax Power Station. We provide and manage electricity for large industrial and commercial sector customers from our offices in Northampton and Ipswich.

BECCS at Drax will also require upskilling and re-skilling the workforce, helping facilitate the green skills of the future, essential for the energy transition. Developing BECCS at Drax Power Station will deliver significant advantages for local communities and help revitalise the North of England and will support 10,000 jobs at its peak.

Drax Group plc, trading as Drax, is a power generation business. The principal downstream enterprises are based in the UK and include Drax Power Limited, which runs the biomass fuelled Drax power station, near Selby in North Yorkshire. The Group also runs an international biomass supply chain business. The company is listed on the London Stock Exchange and is a constituent of the FTSE 250 Index
