

Drax power ltd Mayotte

What happened at Drax Power Station in North Yorkshire?

In April, Drax announced the official end of coal-fired generation at Drax Power Station in North Yorkshire, marking a historic milestone in both the company and the UK's transformation to a zero-carbon energy future.

Is Drax power station compliant with LCPD?

Drax Power Station undergoes refinancing and Drax Group plc is listed on the London Stock Exchange. Boosted-over-fire-air (BOFA) technology is retrofitted to all boilers and emissions of nitrous oxide (NO_x) are reduced ensuring Drax Power Station is compliant with a strengthened Large Combustion Plant Directive (LCPD).

Who owns Drax Power Station?

In 1990, the electricity industry of England and Wales was privatised under the Electricity Act 1989. Three generating companies and 12 regional electricity companies were created. As a result of privatisation, Drax Power Station came under the ownership of National Power, one of the newly formed generating companies.

What happened to AES & Drax Power Station?

AES and Drax part ways after one of the power station's major customers goes into administration. As creditors, various financial institutions take control of Drax Power Station. Drax Power Station undergoes refinancing and Drax Group plc is listed on the London Stock Exchange.

When does Drax Power Station start generating electricity?

The Selby coalfield is discovered and the Central Electricity Generating Board begins building Drax Power Station to use its coal. Two other recently-built coal power stations, Ferrybridge C and Eggborough, begin generating electricity. Drax Power Station begins generating electricity after its first 660MW unit is commissioned.

Is Drax a 'mobilising a million' energy company?

Drax becomes the first UK energy company to announce an initiative to improve employability for a million people by 2025 - Mobilising A Million. In late January, Drax completes the sale of its gas assets to VPI Generation Limited. The Group announces in February that it has signed an acquisition agreement with Pinnacle Renewable Energy.
