

The U.A.E., part of the OPEC bloc of oil-producing countries, is building a parallel energy track to establish itself as a green energy powerhouse. Masdar has operations in 40 countries with...

Dubai is meeting the growing electricity demand from renewables and more power stations. DEWA added 16 substations at its giant Mohammed bin Rashid al Maktoum Solar Park and another district in 2021, it said Jan. 23.

The Green Hydrogen project is the first of its kind in the Middle East and North Africa to produce green hydrogen using solar energy. Implemented in collaboration with Expo 2020 Dubai and Siemens Energy, the project produces about 20 kilogrammes of hydrogen per hour, and its gas tank can store up to 12 hours of hydrogen produced using solar energy.

RWE Middle East is helping Dubai develop its Integrated Energy Strategy 2030 and also advising the Emirate on technical issues of energy supply and other topics like the development and implementation of a strategic programme to reduce energy consumption.

The Dubai Electricity and Water Authority (DEWA) and UAE state-owned renewable power company Masdar have announced financial close on the 1.8GW sixth phase of the Mohammed bin Rashid Al...

Several Gulf states have introduced renewable energy certificates into their low-carbon energy eco-system. What are RECs and how can they help companies navigate the energy transition?

Saudi developer ACWA Power has penned a 25-year power purchase agreement (PPA) for the 900MW fifth phase of the 5GW Mohammed bin Rashid Al Maktoum Solar Park, contracted by the Dubai Electricity...

UAE state-owned renewable energy company Masdar has signed a number of agreements to develop new renewables projects in Africa, including 300MW of new solar capacity in Angola and Uganda.
