Elite Energy and Engineering company was established in Jordan since July, 2015. Elite Energy and Engineering is a leading Renewable Energy third party solutions company, providing consultancy and technical advisory services in Solar Energy, Wind Energy, as well as energy conservation studies.

Elite Energy & Engineering (EEE) is a consulting company that provides renewable energy projects with full technical, contractual and financial solutions. EEE was established for the purpose of energy conservation.

EEE Energy Private Limited is a leading designer, developer, and manufacturer of customized Lithium-Ion (Li-Ion) and Lithium Ferro Phosphate (LiFePO₄) battery packs and power backup solutions. We employ the Latest Battery Management System (BMS) technology to serve a wide range of applications.

The business of EEE is growing rapidly every month, proving great success in collaboration with national and international entities including DNO's, financiers, developers, EPCs, and many other public and private end users.

EEE Energy Private Limited's pioneering battery technology and unwavering commitment to innovation have played an instrumental role in our ability to provide Electric Vehicles that excel in performance, efficiency, and reliability.
