Where are EG4 products made?

EG4 products are designed, developed, and engineered in the United States by technical experts, ensuring top-notch quality. Based in Texas, we offer direct customer support--just pick up the phone.

Where is EG4 located?

Based in Texas, we offer direct customer support--just pick up the phone. With over 150,000 successful installations, EG4 is a trusted industry leader, delivering reliable and advanced energy solutions with superior performance and ease of use. Real People. Real Impact.

What is EG4 flexboss21?

The EG4 FlexBOSS21 is a split phase, all-in-one, hybrid inverter designed for the residential and small commercial markets. With a 21kW usable PV (DC) input, the FlexBOSS21 provides high power output, generating 12kW of AC power during non-sunlight conditions and a full 16kW AC with solar PV gain.

What products does EG4 offer?

What is an EG4 inverter?

The EG4 inverter series is a game-changer in the world of off-grid power solutions. These state-of-the-art inverters are designed to meet the growing demand for reliable, efficient, and user-friendly power systems. The EG4 inverters boast an impressive array of features that set them apart from the competition.

Are EG4 inverters solar compatible?

When it comes to solar compatibility, the EG4 inverters shine. They feature: These features ensure optimal solar energy harvesting and efficient charging of your battery bank. The inverters automatically detect and adapt to the connected solar panels, making setup a breeze.

Looking for a reliable, high-performance battery for your off-grid or backup power needs? I've been researching lithium iron phosphate (LiFePO4) batteries and came across the impressive EG4 LifePower 4 battery. It boasts some remarkable specs, including a 5.12kWh capacity, 99% operating efficiency, and a 10-20 year design life. What really caught my ...

EG4's LifePower 4 lithium-ion battery stands out for its impressive specs and versatility. With a capacity of 5.14kWh and a nominal voltage of 51V, it packs a punch in terms ...

EG4 Warranty Coverage: Rest easy with our 5-Year Limited Warranty, ensuring peace of mind and reliable performance for years to come. Downloads. CERTIFICATIONS. DOCUMENTATION. CERTIFICATIONS. AHRI Certificate - 12K AC . DOCUMENTATION. EG4 AC Mini-Split 9K 12K BTU - Manual v2.0.2. EG4 12K AC Only Mini Split - Spec-Sheet.

TL,DR: I'm upgrading my existing system - should I go for Victron or EG4? I live in a simple 400sf off-grid tiny house in Vermont. I built our system in 2020 and it consists of 3.2kw of solar, an EPEVER 100amp charge controller, a cheapo 3500w pure sine inverter, and some cheap lead acids... wired in series/parallel for 24v.

Introducing the EG4 LL (Lifetime Lithium) Lithium Iron Phosphate battery, now at 51.2V (48V) with 5.12kWh capacity and a 100A internal BMS. This battery improves upon its predecessor, the EG4 LL Battery. Fully compatible with the previous EG4 LL Model, our EG4 LL batteries continue to offer unparalleled performance and longevity. Rest assured ...

EG4's versatile Energy Storage Systems (ESS) store energy from renewable sources for times of low availability, power loads during grid outages, and shift grid usage to off-peak hours (or peak shave). Additionally, they contribute to grid stability by smoothing out demand, reducing peak loads that strain the grid.

The EG4 FlexBOSS21 is a split phase, all-in-one, hybrid inverter designed for the residential and small commercial markets. With a 21kW usable PV (DC) input, the FlexBOSS21 provides high power output, generating 12kW of AC power ...

The EG4 comes with a Wi-Fi adapter. In addition, the W LAN Ethernet Adapter and 4G Monitoring Adapter are available. Any of these can be used to set up internet access for the EG4 6000XP. Internet access is not required for the ...

The EG4 MPPT100-48HV solar charge controller extracts the maximum available power from your PV modules and safely converts it to a lower voltage to charge your battery bank. Optimize your new or existing solar power system by ...

The EG4 18kPV hybrid inverter/charger is a robust solution for solar users seeking flexibility and efficiency. EMP-hardened to withstand natural or manmade disruptions, it supports off-grid, grid-assist, and grid-tied modes, allowing for energy independence, backup from the ...

The EG4 12kPV is a 48V, split-phase hybrid inverter designed for both rural and suburban homeowners seeking energy independence. It is similar to the EG4 18kPV in its ability to power loads while charging batteries and also shares the same certifications, architecture, and firmware.
