

El Salvador lys energy group

Who is Lys Energy Group?

LYS Energy Group is the leading Singapore-based renewable energy platform that offers end-to-end clean energy solutions for commercial, industrial and public sites in the Asia Pacific region specialising in zero capex solar energy (PPA), Renewable Energy Certificates (RECs), turnkey EPC and O&M services.

What is El Salvador's energy sector like?

El Salvador's energy sector is largely focused on renewables. El Salvador is the largest producer of geothermal energy in Central America. Except for hydroelectric generation, which is almost totally owned and operated by the public company CEL (Comisi#243;n Hidroel#233;ctrica del R#237;o Lempa), the rest of the generation capacity is in private hands.

What energy sources does El Salvador use?

El Salvador is increasingly turning to indigenous renewable sources of energy such as hydropower, biomass, solar PV and geothermal energy. In 2019, more than two-thirds of the country's total energy supply came from imported fossil fuels.

How does EDP work in El Salvador?

By shifting a significant amount of power supply to natural gas, EDP reduces El Salvador's reliance on diesel and heavy fuel oil-fired power generation, offsetting 600,000 tons of carbon dioxide emissions per year, and provides grid support to facilitate more renewable energy penetration, further diversifying the country's energy mix.

Why is solar energy booming in El Salvador?

In recent years, solar PV, wind and as well as other renewable technologies have boomed in El Salvador as the country looks to move away from traditional energy sources seen as compromising the country's socioeconomic future.

How many generation companies are there in El Salvador?

In 2006, there were 11 generation companies in El Salvador, with 18 out of 22 generation plants in private hands and 97% of hydroelectric capacity owned by the public company CEL (Comisi#243;n Hidroel#233;ctrica del R#237;o Lempa).
