

Electrochem battery Guadeloupe

With a diverse portfolio of ruggedized cells in various sizes, temperature ranges and rate capabilities, our team can design a custom battery pack to meet the unique needs of your critical application. We design solutions for long term, zero-defect performance using stringent quality processes; resulting in the most reliable products on the market.

Electrochem battery packs meet DOT requirements so they can be transported with ease-of-mind. Safety & Reliability Electrochem packs are capable of withstanding extreme operating temperature (high & low), shock and vibration. Cell and pack protective circuitry, glass-to-metal hermetic seals, fuses and diodes further ensure safe, reliable ...

Electrochem Wide Range Battery Technology delivers reliable, consistent power at both ends of the operational range. Revolutionary testing capabilities. Electrochem Wide Range Battery Technology enables surface-level testing of high-temperature downhole tools. By performing simple deck checks, your team can be confident that the tool

Electrochem, is a leading provider of commercial power solutions specializing in critical applications where energy demands are high, operating environments are extreme, and the cost of failure is significant. Founded in 1979, Electrochem was born from the lithium battery developed for the implantable pacemaker by Wilson Greatbatch.

Each battery is equipped with smart BMS for giving long life. Our service centers are at 14 locations across India to give the local support to our customers. These batteries are designed to give long run hours for enhancing the usage experience.

Founded in 1979 by the inventor of the first lithium battery for the implantable pacemaker, Electrochem® is a leading provider of technology solutions for critical industrial applications. Our ability to develop technologies not only from a pack level, but also a cell level, gives us a unique capability many of our competitors do not have.

Electrochem's approach is designing solutions for long-term top-mission performance. Our battery solutions have been meeting the challenges of the world's top research institutions, industry-leading companies, and government agencies for decades and we lead the pack in creating proprietary and highly customized battery solutions.
