

According to foreign media reports, the Swedish distribution network operator Ellevio is investing in and deploying four battery energy storage projects with a total installed capacity of 70MW. This is the latest project in a series of large-scale energy storage projects that Ellevio plans to deploy.

In its latest agreement, Alfen will supply Ellevio with 2 storage systems for the battery parks in Mora and Sderala that will have a combined installed capacity of 80 MW/80MWh. Installation is expected to be completed in the first half of 2025.

2022, Ellevio Energy Solutions, TSO Svenska Kraftn

One of Sweden's DNOs Ellevio Group is investing in four new battery storage projects totalling 70MW, supplied by Alfen, the latest in a series of large-scale projects. In the first phase, two battery energy storage units of 15MW each will be deployed in Kungsbacka and Lindome with construction expected to finish in spring this year.
