

Energeia company Australia

Who is Energeia?

Energeia was founded in 2009 to pursue a gap foreseen in the professional services market for specialist information, skills, and expertise that would be required for the industry's transformation over the coming years.

What services does Energeia offer?

Energeia offers consulting services for the electricity, natural gas, and transport sectors across our decarbonisation, decentralisation, and technical practice areas. We utilize our specialist industry experience, datasets, and tools to help our clients make more efficient, sustainable, and equitable decisions.

What does Energeia do?

Energeia supports energy businesses through the climate-saving transition to more efficient, sustainable, and equitable solutions with decades of specialist experience, research, datasets, tools, and methods.

What is Energeia's research?

Energeia's research outlines key pathways, including renewable gas blending, thermal energy networks, and end-use electrification, all vital for achieving carbon targets while minimizing economic disruption. ...

Who is Nea Energeia?

With Nea Energeia, you have a trusted partner dedicated to delivering sustainable energy solutions tailored to your commercial needs. Solar construction services involve the physical construction of solar energy systems.

How did Energeia support SGSC?

“Energeia's model provided DoI with a sound evidence base to leverage the \$100M of public funding invested in SGSC. Energeia engaged openly with stakeholders, was open to new ideas, and responded well to a robust Q&A process from Government and key stakeholders.”

The Australian Electric Vehicle Market Study commissioned in partnership with the Clean Energy Finance Corporation, and prepared by Energeia consists of two related parts - Part A - Strategic Review of Electric Vehicle Charging Infrastructure and Part B - Market Review of Electric Vehicle Sales, Stock and Infrastructure.

Energica Motor Company SpA, a manufacturer of high-performance electric motorcycles 75% controlled by the American fund Ideanomics Inc., announces that its Board of Directors meeting held on 14 October 2024...

While there is not a lot of company information on the Energieia website, it's clear that they emphasize customer satisfaction. That's because they have a no-questions-asked policy when it comes to refunds. They also work hard to process your refund quickly. The company is also offering free weight loss resources when you order more than one ...

As the Australian Energy Regulator (AER) ponders the merits of its incentive-based regulatory approach, analysis from Energieia suggests that the existing incentive schemes are doomed to fail. Unfortunately, the findings are clear. Spending on capital works such as grid upgrades increase shareholder returns by 200 percent compared to the best performing non-network ...
