What are the best solid-state battery stocks?

Below is our selection of the top seven solid-state battery stocks to watch. QuantumScape is a company dedicated to developing solid-state lithium batteries for electric cars. Backers include Volkswagen and Bill Gates. Solid Power develops solid-state cell and high-tech sulphide solid electrolyte batteries. Major partners include BMW and Ford.

Is Albemarle a solid-state battery stock?

Though Albemarle is not directly a solid-state battery stock, it's important to include them because they are among the leading lithium producers worldwide. Lithium is a crucial component in EV batteries, including those used in solid-state technology, like those produced by Solid Power.

Is solid power a speculative battery stock?

Solid Power is a speculative battery stock that can generate sizable gains if the industry shifts from traditional lithium-ion batteries to solid-state batteries. Current lithium-ion batteries are prone to fires and become less effective when temperatures cool.

Should you invest in a lithium battery ETF?

An ETF focused on lithium battery tech will provide diversification across the industry, from lithium mining companies to battery manufacturers to EV automakers that integrate the tech into a vehicle. Since lithium batteries used in larger applications are still undergoing rapid development, there are few choices for ETF pure plays in the industry.

Should you buy battery stocks in 2024?

The International Energy Agency predicts a tenfold increase in battery demand for electric vehicles over the next decade. Battery stocks haven't fared well for much of 2024, but a big rally has put them back in the spotlight. The Global X Lithium & Battery Tech ETF (ticker: LIT) gained more than 20% in September.

Why is lithium important for EV batteries?

Lithium is a crucial component in EV batteries, including those used in solid-state technology, like those produced by Solid Power. As the production of solid-state batteries ramps up, the demand for Albemarle's lithium products is anticipated to surge significantly.
