

How many people in DRC have electricity?

According to World Bank data, only about 19 percent of DRC's population had access to electricity in 2019. The project was originally developed by CIGenCo, Greenshare Energy, Greenshare Congo, Volt Renewables, and Nzuri Energy. IFC and Globeleq (as lead developer) have come on board to drive the project forward and help it reach completion.

Who owns electricity in Congo?

Less than 10% of Congo's roughly 90 million people have reliable access to electricity. The consortium is led by Gridworks, which is owned and financed by the British development finance institution CDC Group, and includes French utility company Eranove and Spanish power developer AEE Power.

What is the energy potential of the DRC?

The DRC has immense and varied energy potential, consisting of non-renewable resources, including oil, natural gas, and uranium, as well as renewable energy sources, including hydroelectric, biomass, solar, and geothermal power.

Will a photovoltaic power plant be built in DRC?

Jean Marie Takouleu A myriad of investors including independent power producers (IPPs) and banks are joining forces to build a solar photovoltaic power plant in Kolwezi, in the south-eastern Democratic Republic of Congo (DRC). With an expected capacity of 100 MWp, the plant will be connected to the DRC's national electricity grid.

Why did the DRC invest in a 100 MWp solar project?

The Lualaba province, where the city is located, has large deposits of copper, cobalt, uranium and radium. According to the IFC, the investment in the 100 MWp solar project underscores "its commitment to innovative early-stage energy projects and the DRC government's efforts to increase and diversify its power generation.

Why does the DRC need a power plant?

The DRC urgently needs investment in its power sector to meet its increasing industrial demand and production deficit. Together with IFC and Globeleq, we will build a landmark power plant for the DRC that will catalyze its nascent independent renewable energy industry," said Greenshare Congo DRC representative, Dr. Adolphe Ngoyi Kitengie.
