

# Energy solution provider DR Congo

Who is Congo energy?

Exclusive distributor of PRAMAC products in the DRC, Congo Energy offers a wide range of reliable and efficient generator sets. Our energy solutions cover various sectors, from light industry to specific infrastructures such as health and data centers. Thanks to our expertise, we offer tailor-made solutions and efficient after-sales service.

What certificate does Congo energy have?

Congo Energy has the certificate issued by ARSP (Autorit  de R gulation de la sous-traitance dans le secteur priv ). This certificate certifies that Congo Energy is authorized to work as a subcontractor in the Democratic Republic of Congo. Congo Energy strives to provide its partners and customers with high-quality products and services.

Who makes Pramac products in the DRC?

In order to offer high-quality innovative products, Congo Energy has concluded partnerships with international companies recognised in their sector of activity: Congo Energy is the exclusive distributor of PRAMAC products in the DRC, offering a wide range of generator sets, from 10 to 4,000 kVA, as well as after-sales service.

How will Nuru empower 5 million Congolese people?

By delivering world-class renewable energy and connectivity services, Nuru aims to empower 5 million Congolese people, one connection at a time. Moving ahead, it will be important to strengthen the public sector and the government's capacity for cross-unit delivery in order to effectively finance renewable energy mini and metro-grids.

What challenges does DRC face?

DRC, with the world's second-largest unelectrified population poses unique challenges due to its vast expanse and limited infrastructure.

We are the historical leader in the field of autonomous energy and energy savings in the Democratic Republic of Congo. Our experts design, install and maintain technical solutions to meet your needs. We diagnose your energy ...

NURU develops and operates commercially-viable isolated solar-hybrid "metrogrids" (utility-scale urban mini-grids) that provide reliable, affordable and clean energy in the Eastern region of the Democratic Republic of Congo.

Let's change energy in Goma, DRC. Nuru, based in Goma, DRC, is one of Africa's pioneering renewable energy-powered metrogrid companies. By delivering world-class renewable energy and connectivity services,
