

Eolian energy Brazil

What business does Eolian operate in?

Eolian, L.P. (owns and operates a growing portfolio of energy storage projects and invests in the most experienced renewable energy development teams in the U.S.) We look forward to furthering Eolian's mission to develop renewable energy solutions nationwide.

Who owns Eolian Energy?

Eolian Energy is owned by its employees and funds managed by Global Infrastructure Partners (GIP). For more information, visit [www.gip.com](#). Global Infrastructure Partners (GIP) is a leading global infrastructure investment firm with approximately \$81 billion in assets under management.

What makes eolian a good investment?

Try again later. Since 2005, Eolian has been an innovative investor in energy projects, including the invention of the renewable energy royalty structure that has now become an industry standard. In contrast to many firms that raise capital with short-term buy and sell strategies, Eolian and its partners have long-term views of 30+ years.

What makes eolian unique?

For nearly 20 years, Eolian's founding management has worked together to build the assets at the core of the company, allowing for a unique perspective on renewable energy investing and an alignment with the long-term generation planning perspective of utilities and independent power producers.

Is eolian a GIP company?

Eolian, L.P. (a portfolio company of Global Infrastructure Partners (GIP)) today announced the closing of a \$925 million renewable energy financing, in collaboration with Banco Santander, Natixis, MUFG and Mizuho.

What makes eolian different from other energy investment firms?

In contrast to many firms that raise capital with short-term buy and sell strategies, Eolian and its partners have long-term views of 30+ years. This allows for a unique perspective on energy investing and an alignment with the long-term generation planning perspective of utilities, independent power producers and power market operators.
