

Why You Should Visit Equatorial Guinea. Obtaining a visa to Equatorial Guinea for some countries can be a complex process; however, it is crucial to consider the significant attraction of the country, which lies in its varied ecosystems.. Equatorial Guinea features lush rainforests, unspoiled beaches, and vibrant coral reefs, providing ample opportunities for ...

MMIE - Annobon Solar PV Plant The Annobon Electrification Project will be the platform for economic growth on the island by bringing a much needed power supply that will enable the development of multiple industries, add 700 to 1,000 direct and indirect jobs to Annobon Island and significantly raise the standard of living.

The Ministry of Mines and Hydrocarbons and GEPetrol signed an agreement on 9 May with Noble Energy to provide additional gas as backfill for Marathon's liquefied natural gas (LNG) plant as the first phase of the government's planned Gas Megahub project. The proposed Gas Megahub will consist of interlinked production, aggregation and processing facilities ...

Equatorial Guinea receives moderate levels of solar irradiation of 4.3 kWh/m²/day and specific yield of 3.7 kWh/ kWp/day indicating a moderate technical feasibility for solar in the country. Equatorial Guinea has installed a self-sufficient solar microgrid system with 5 MW solar modules for a reliable power

Aptech Africa installed 11 solar systems in 11 different villages of 5kWp, 15kWp, and 20kWp with battery energy storage of 12kWh, 15kWh, and 36kWh respectively. One of the systems is a hybrid system and the rest are standalone systems working alongside a generator and existing grid.

Despite logistics challenges, Aptech Africa has installed 11 solar systems in Equatorial Guinea featuring capacities of 5kWp, 15kWp, and 20kWp, coupled with battery energy storage ranging from 12kWh to 36kWh. Among these, one system is hybrid, while the rest are standalone systems coexisting with generators and the existing grid.

Official portal for the Prime Minister's Internship Scheme. Register and apply for internships in India's top 500 companies. Secure your spot today and gain valuable industry experience. Check eligibility, scheme guidelines, financial assistance and more.

Name of the Scheme: Chief Minister's Program for Solarization of Agriculture Tubewells in Punjab: Total Allocation Cost: Rs. 9,887.42 million (Rs. 2,500 million for 2024-25) Gestation Period: 2 years (2024-25 to 2025-26) Scheme objective: Promotion of solar irrigation for agricultural resilience and adaptation to climate change
