

Guido Prearo, CEO at Emeren, said the acquisition "offers unique synergies", combining his company's knowledge of European solar markets with ReneSola's project development expertise and resources. The ...

Renesola, established in 2005, has been a pioneer in the global new energy field, committed to making unremitting efforts to mitigate global warming, and providing quality power station solutions for global clients. So far, the global historical shipment is 25GW+ (the number is constantly updated).

The module shipment has been impacted by the company's conscious decision to shift focus towards project development and to diversify its business. Presently, ReneSola is developing projects including distributed generation projects in Europe, North America and Japan.

The firm's relocation came alongside a management shake-up, with Yumin Liu and Ke Chen respectively appointed as ReneSola's new CEO and CFO. Both, the firm said, will work out of the new US base.

China-based ReneSola has signed a Memorandum of Intent (MOI) with Jiangsu Akcome Solar Science & Technology to sell three utility-scale projects in Western China. The projects totaling 60MW are situated in Qinghai and Xinjiang provinces and all are connected to grid.

ReneSola and Eiffel to develop joint venture for 1GW of European solar. ReneSola Power and asset management firm Eiffel Investment Group have announced their intent to jointly develop 1GW of solar projects in Europe.

Guido Prearo, CEO at Emeren, said the acquisition "offers unique synergies", combining his company's knowledge of European solar markets with ReneSola's project development expertise and resources. The acquisition was completed on 10 October through an all ...

The affiliate company intends to acquire the project-based special purpose vehicles (SPVs) associated with the DG operating assets, currently owned by ReneSola subsidiary Zhejiang ReneSola Investment.
