

Where is Eritrea's first solar plant?

The government of Eritrea has received a \$49.92 million grant from the African Development Bank to fund a 30 MW photovoltaic plant in the town of Dekemhare, 40 km southeast of the capital Asmara. It will be the country's first large-scale solar plant.

Does Eritrea have a solar farm?

Eritrea is lagging far behind in the electrification of its territory and is now turning to renewable energy. The government has launched the country's first solar farm, a 30-MW facility 30 km from the capital, Asmara.

What is the African Development Fund (ADF) doing in Eritrea?

The African Development Fund (ADF) is helping Eritrea's government to develop a 30 MW solar plant in Dekemhare, in the central part of the African country. The ADF is currently seeking consultants for the project through a tender. The project will include an unspecified amount of battery storage and a 66 kV transmission line.

Will Eritrea become the largest solar zone in the world?

When completed it will become the largest solar zone in the world. Financing Approval date 1 March 2023  
Project name: Dekemhare 30-megawatt photovoltaic solar power plant project in Eritrea.

Is the African Development Fund seeking consultants for Dekemhare solar project?

It has launched a tender to seek consultants for the project. The African Development Fund (ADF) is helping Eritrea's government to develop a 30 MW solar plant in Dekemhare, in the central part of the African country. The ADF is currently seeking consultants for the project through a tender.

How much PV capacity does Eritrea have in 2021?

According to the International Renewable Energy Agency (IRENA), Eritrea had just 24 MW of installed PV capacity at the end of 2021. This content is protected by copyright and may not be reused.
