

# Eritrea solar panel repair companies

What are the benefits of solar energy in Eritrea?

The government of Eritrea has been making efforts to promote the use of alternative sources of energy, especially solar energy, to mitigate the problems associated with the use of fossil fuel. A major benefit of solar energy is that it does not pollute the environment and saves money in the long run even if its installation cost is quite high.

Does Eritrea have solar power?

Eritrea's weather, characterized by long sunny days throughout the year, makes it suitable for harnessing solar power. Data from the wind and solar monitoring stations installed in many parts of Eritrea show that the country has a great potential, around 6 kWh/m<sup>2</sup> of solar energy.

What is Eritrea's main source of energy?

Eritrea's major source of energy is petroleum, which drains the foreign currency reserves of the country and is globally a major cause of pollution. The government of Eritrea has been making efforts to promote the use of alternative sources of energy, especially solar energy, to mitigate the problems associated with the use of fossil fuel.

Solarcentury, an integrated solar power company with operations across Europe, Latin America, and Africa, has commissioned two solar-hybrid mini-grids, bringing power to the rural communities of Areza and Maidma in Eritrea in East Africa.

Areza and Maidma are rural communities in Eritrea that will benefit from this cleaner, more affordable reliable source of power. They currently depend entirely on diesel-generated power, available in the evening only, because they are set in one of the most remote areas in Eritrea without connection to the nation's electrical grid."

Florida Power Services "The Solar Power Company" has been providing Florida residents with high quality residential solar panel maintenance and repair for over 17 years.
