Can ESS be combined with Fronius smart meter?

By using the "Power Reduction" feature in Fronius grid-tie inverters, the ESS system can automatically reduce the output of the installed PV inverters as soon as feed-back is detected; without switching and frequency shifting. It is not possible to combine ESS with the Fronius Smart Meter, but it's not necessary either, as ESS already has metering.

Does ESS work with a grid-tie inverter?

ESS can work with either an MPPT Solar Charger, a grid-tie inverter, or a mix of both. Generally speaking, the MPPT Solar Charger will be more effective than a grid-tie inverter in a small system.

Can ESS be installed on a multi Rs?

Note that ESS can only be installed on VE.Bus model Multis and Quattros which feature the 2nd generation microprocessor (26 or 27). All new VE.Bus Inverter/Chargers currently shipping have 2nd generation chips. The Multi RS is currently excluded and does not yet support ESS.
