

How will a new solar plant help Macedonia?

Andi Aranitasi, EBRD Head of North Macedonia, said: "The new solar plant will help the country, which faces severe air pollution from coal, to reduce its reliance on ageing coal-fired infrastructure. It will also generate cheap electricity in times of very high market prices."

Who built the first solar plant in North Macedonia?

The 10MW solar plant, built on the site of the spent Oslomej lignite coal mine, was constructed by the public company JSC Elektrani na Severna Makedonija (ESM). This is the company's first solar plant in North Macedonia, developed with a view to diversifying energy sources and supporting decarbonisation.

What are the decarbonisation plans in North Macedonia?

Decarbonisation plans in North Macedonia are taking a big leap forward. The European Union (EU) is supporting ESM, the state-owned electricity company, to implement a 30 MW photovoltaic (PV) project consisting of 10 MW on a portion of the exhausted coal mine of thermal power plant Oslomej, and 20 MW adjacent to the thermal power plant Bitola.

Is North Macedonia a good place to invest in green energy?

Dimitar Kovačevski, Prime Minister of North Macedonia: "It is really a great pleasure to be here today, where once a big environmental polluter was located and now we are producing green energy. The benefits of this investment are manifold."

Does the EBRD invest in North Macedonia?

The EBRD is a major institutional investor in North Macedonia. To date, it has invested more than EUR 2.2 billion in 159 projects across the country. Supporting green energy is a priority for the Bank, as it addresses one of the country's most pressing challenges.

The first large-scale solar plant in North Macedonia - financed with the support of the European Bank for Reconstruction and Development (EBRD) and bilateral donors to the Western Balkans Investment Framework (WBIF) - has been connected to the power grid and is producing clean electricity.

Decarbonisation plans in North Macedonia are taking a big leap forward. The European Union (EU) is supporting ESM, the state-owned electricity company, to implement a 30 MW photovoltaic (PV) project consisting of 10 MW on a portion of the exhausted coal mine of thermal power plant Oslomej, and 20 MW adjacent to the thermal power plant Bitola.

The first large-scale solar plant in North Macedonia - financed with the support of the European Union, WBIF bilateral donors and the European Bank for Reconstruction and Development (EBRD) has been connected to the ...

French renewable energy power producer and developer Akuo Energy Sas Paris plans to invest 270 million euro (\$303.2 million) in the construction of a solar park in North Macedonia, the government in Skopje said. The solar park will have a total installed capacity of 350-400 MW, North Macedonia's government said in a statement on Tuesday.

The first large-scale solar plant in North Macedonia - financed with the support of the European Bank for Reconstruction and Development (EBRD) and bilateral donors to the Western Balkans Investment Framework ...

The European Bank for Reconstruction and Development (EBRD) extended a 5.9-million-euro loan for the project, while ESM will provide the rest of the total costs, estimated at 8.7 million euros. ... "We have plenty of ...

to EUR 25 million. The loan will be guaranteed by the Republic of North Macedonia. The operation is 100% GET and will enable the Company to construct and operate a 30MW ac solar PV project across two sites on the exhausted coal mine of Thermal Power Plant ("TPP") Oslomej for 10MW ac and adjacent to coal fired TPP Bitola for 20MW ac

Solar energy is currently the fastest growing energy source in the EU. In 2021 alone, the 22,817 MW of new photovoltaic solar power plants were installed across the EU member states, bringing the total capacity to 158,911 MW at the end of the year, according to data from the EurObsv"ER portal. While the European Union (EU) members combined ...

North Macedonia is the fifth country outside the European Union to host a Frontex joint operation team. For the past two years now, more than 100 European border guards have supported local authorities to carry out the checks and surveillance.

First large-scale solar plant North Macedonia's first ever large-scale solar plant, financed with EBRD support, to produce clean electricity. The 10MW plant is built on the same site as a spent lignite coal mine, and the Bank is now financing and preparing tenders for an additional 30MW of solar capacity on the sites of former coal mines in

The first large-scale solar plant in North Macedonia has been connected to the power grid and is already producing clean electricity. The plant has been financed with the support of the Western Balkans Investment Framework (WBIF) bilateral donors and the European Bank for Reconstruction and Development (EBRD).

The European Union and WBIF bilateral donors, together with the European Bank for Reconstruction and Development (EBRD), are consolidating their support for solar energy projects in North Macedonia with grant financing for the first large-scale solar plant.

DOCUMENT OF THE EUROPEAN BANK FOR RECONSTRUCTION AND DEVELOPMENT Approved by the Board of Directors on 12 October 2021 North Macedonia ESM Solar PV Transition [Redacted in line with the EBRD's Access to Information Policy] [Information considered confidential has been removed from this document in

The first large-scale solar plant in North Macedonia - financed with the support of the European Union, WBIF bilateral donors and the European Bank for Reconstruction and Development (EBRD) has been connected to the power ...

Mey Energy completed a 55 MW photovoltaic facility in Novaci in North Macedonia. It is currently the largest PV facility in the Western Balkans.. After a 45 MW facility in Bosnia and Herzegovina entered a trial phase, Mey Energy announced that it has finished its 55 MW solar power plant in the municipality of Novaci in North Macedonia, in the heart of the ...

Euro Solar nudi kompletna rješenja za izgradnju fotonaponskih elektrana po principu „ključ u ruke“, od izrade projekata preko izgradnje solarnih elektrana do mogućnosti otkupa električne energije proizvedene iz obnovljivih izvora. Regionalna prisutnost.

The European Bank for Reconstruction and Development (EBRD) has launched the call for 30 MW solar PV project capacity development in North Macedonia, on behalf of the country's state-owned utility Elektrani na Severna Makedonija (ESM).

The installation of rooftop-based solar systems for business consumers in North Macedonia is offered by Electricity distributor EVN in cooperation with ProCredit Bank. As a result of this cooperation, companies will be able to obtain loans from ProCredit Bank with interest rate of 3 % in order to finance the installation of solar systems. EVN

North Macedonian electricity producer ESM has launched a tender for the design, procurement, construction, commissioning and handover of two solar plants totaling 30 MW. The two projects are a 10 MW solar plant, Oslomej 2, located at an abandoned coal mine near North Macedonia's western border, and a 20 MW solar project, Bitola, to be developed ...

GEN-I completed the construction of the largest solar power plant in North Macedonia and connected it to the grid in September, 4 months ahead of the government's deadline. ... The key takeaways from this year's European Hydrogen Week. December 10, 2024.

North Macedonia-based PiKCELL Group announced on Facebook that it would build a factory for the production of state-of-the-art photovoltaic panels in the Technological Industrial Development Zone (TIDZ) in Tetovo with German company AE Solar. The construction is planned to begin in October, and the plant should start production as early as March.

Euro solar North Macedonia

Decarbonisation plans in North Macedonia are taking a big leap forward. The European Union (EU) is supporting ESM, the state-owned electricity company, to implement a 30 MW photovoltaic (PV) project consisting of 10 ...
