Is Euronet bringing sustainable and efficient solar solutions to East Africa?

Euronet is thrilled to announce our expansion into Tanzania, marking a significant step in bringing sustainable and efficient solar solutions to East Africa. Join us at the Nigeria Energy Exhibition to explore the Euronet products, a cutting-edge power management system designed for reliable and efficient energy storage.

Who is Euronet?

EURONET is the leading brand in the Middle East, African region and Central Asia, over the decade we have achieved many milestones in more than 48 countries worldwide. We have always catered high quality with cost efficient products to our customers.

What is Euronet all-in-one energy storage solution?

Euronet All-in-One Energy Storage Solution (E.S.S.) is designed to meet all your energy needs with reliability and efficiency. Euronet is thrilled to announce our expansion into Tanzania, marking a significant step in bringing sustainable and efficient solar solutions to East Africa.

When will DR Congo's solar power plants be built?

The plants are to be built by the Moyi Power joint venture and are expected to be completed within 18 months after the start of construction. According to the latest figures from the International Renewable Energy Agency, DR Congo only had 20 MW of installed PV capacity at the end of 2020.

How many people have electricity in the Democratic Republic of Congo?

Goma hybrid solar project in the Democratic Republic of Congo According to the World Bank, only 19% of the DRC's around 102 million people have access to electricity. This translates to about 41% in urban areas and 1% in rural areas.

How will a solar hybrid mini-grid work in DRC?

MIGA said CESL is developing, building and operating solar hybrid mini-grid projects through Nuru SASU in DRC to generate up to 15MW of electricity. Once completed, the project will provide electricity to around 28,000 households and businesses that "currently have expensive, unreliable, unsustainable, or no access to electricity."

Solar developer SkyPower Global has signed a Joint Development Agreement with Africa Finance Corporation (AFC) that will catalyse the construction of the 200-MW first phase of the Green Giant project in the Democratic Republic of Congo (DRC).

6 ???&#0183; A solar energy project in the Democratic Republic of Congo (DRC) is aimed at bringing electricity to at least a million of the country's people. The plan is to have the \$340 million ...
