

How long is a Bess project in Finland?

New BESS projects in Finland are generally moving to 2-hour durations, including the largest under-construction at 112.9MWh, by IPP Neoen, which optimiser Capalo AI explained in our coverage of that project last week. Essentially, new state-of-charge rules and increasing opportunities in energy trading have driven the business case beyond 1-hour.

What does Bess stand for?

BESS in Finland. Image by: Helen Oy. Finnish utility Helen Oy will invest an undisclosed amount in a 40-MW battery energy storage system (BESS) project planned to be installed in the southern part of its home country.

How much power does a Bess project have?

However, it isn't clear if that means the megawatt power or the undisclosed megawatt hour capacity. New BESS projects in Finland are generally moving to 2-hour durations, including the largest under-construction at 112.9MWh, by IPP Neoen, which optimiser Capalo AI explained in our coverage of that project last week.

How much did Merus Power Invest in the Bess project?

Merus Power said its 'share of the investment' in the project totals EUR15 million (US\$16 million), which includes the delivery, testing and commissioning of the BESS. The total investment is larger, including locally built infrastructure and a long-term maintenance contract for the project, the latter also provided by Merus Power.
