

France off grid solar system price

Are solar panels a good investment in France?

As electricity prices continue to soar in France - up 60% in four years - more people are turning towards solar panel kits, which promise to help users save on energy costs and installation prices. The estimated extra cost of electricity in 2024, compared to 2020, is EUR540 per household per year.

How much solar power does France have in 2023?

France had roughly 24.5GW of grid-connected solar PV capacity by the end of 2023, the IEA PVPS said. Its full report can be read [here](#). Understanding PV module supply to the European market in 2025.

How much does it cost to install a rooftop PV system in France?

France's energy regulator, the Commission de Régulation de l'Énergie (CRE), has released FITs for rooftop PV installations up to 500 kW in size for the period from August 2023 to January 2024. The new tariffs range from EUR0.2077/kWh for installations below 3 kW in size to EUR0.1208/kWh for arrays ranging in size from 100 kW to 500 kW.

Which gas utility has the biggest solar portfolio in France?

ENGIE is a gas utility also present in the development and generation of electricity capacity - and has the biggest solar portfolio in France at around 1 GW. The public utility Soregies, the largest of France's public utilities, serves a population of approximately 150 000.

Are French solar installations bolstered by a new law?

Beyond falling prices, the IEA PVPS report said solar installations were bolstered by the measures introduced in the French government's Law for the Acceleration of Renewable Energies which came into force in 2023. A requirement that competitive tender winners share some of the added value with locals.

Does France really need a fully integrated PV system?

France has, for the past 10 years, strongly encouraged fully building integrated PV, with preferential feed-in tariffs and access to Tenders, only being phased out over 2017/2018.

It costs around EUR10,000 for a modest-sized solar photovoltaic system and at least EUR5,000 for a solar thermal system heating hot water only and around EUR14,000 or more for one that also feeds into your central heating system.
