What is French Guiana doing to improve energy access?

Reflecting France's international climate (compared to 1990) in 2030. Another important planning (Programmation pluriannuelle de l'énergie, PPE) . the security of supply. French Guiana has its own pluriannual energy programming. deployment to improve energy access.

What is the energy transition in French Guiana?

The Energy Transition for green growth. Reflecting France's international climate (compared to 1990) in 2030. Another important planning (Programmation pluriannuelle de l'énergie,PPE) . the security of supply. French Guiana has its own pluriannual energy programming.

Is biomass a source of electricity in French Guiana?

Traditional biomass - the burning of charcoal,crop waste,and other organic matter - is not included. This can be an important source in lower-income settings. French Guiana: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Is French Guiana a country based on fossil fuels?

French Guiana as a French overseas territory is heavily dependent on imported fossil fuels. It is a two-tier society where there is a large gap between the coastal and the inland areas concerning energy access. Compared to the coastline,the household electrification rate in the rural areas remains lower.

Didier Bouix, Nicolas Berthelot and Timothée Drugeot from the EO Concept team also came aboard Energy Observer during their visit to French Guiana. It was an opportunity for Didier and Nicolas to sail the boat again, as they were both part of the team that designed our laboratory vessel over seven years ago.

Electric This Arctic Trucks-prepped Nissan Ariya will drive from the North to the South Pole. Husband and wife team Chris and Julie Ramsey will drive 17,000 miles in this modified EV SUV
