

The Paris-based company secured the project in a government tender for solar projects in non-interconnected zones (ZNIs) in May 2021. The guaranteed tariff contract for the plant's output will be valid for 20 years.

Voltalia currently operates solar, hydraulic, biomass and storage power plants in French Guiana with a combined capacity of 31 megawatts, allowing the coverage of nearly 10% of the main electricity grid consumption.

In French Guiana, commissioning of a combined solar and storage power plant Voltalia (Euronext Paris, ISIN code: FR0011995588), an international player in renewable energy, announces today...

Voltalia currently operates solar, hydraulic, biomass and storage power plants in French Guiana with a combined capacity of 31 megawatts, allowing the coverage of nearly 10% of the main ...

French Guiana's electricity production mainly comes from local renewable energies (64%), compared to 36% from imported fossil fuels. To improve the integration of intermittent renewable energies, solar energy in this study, it is necessary to focus on resource forecasting.

French energy minister Ségolène Royal has signed a decree establishing an energy programme (PPE) for French Guiana, that aims to use solar, biomass and hydro to reach 85% renewables...

French Guiana's electricity production mainly comes from local renewable energies (64%), compared to 36% from imported fossil fuels. To improve the integration of intermittent ...

French renewable power producer Voltalia SA (EPA:VL TSA) has started the construction works on a 5-MW solar farm combined with a 10.6-MWh lithium-ion battery storage unit in French Guiana.

Renewable power plants operator Voltalia SA (EPA:VL TSA) on Thursday announced the commissioning of its 5-MW Parc Sable Blanc solar farm with an integrated storage system in French Guiana. The Paris-based company secured the project in a government tender for solar projects in non-interconnected zones (ZNIs) in May 2021.
