

Together, the two facilities possess a combined capacity of 10 MW, generating sufficient energy to cover the annual electricity needs of close to 3,600 homes in French Guiana. In French Guiana, EDF now has eight solar facilities in service, including three that are equipped with battery storage systems.

In French Guiana, a region with high annual sunshine hours, the Group operates two photovoltaic power plants, Matoury and Kourou, located in areas free from conflicts of use. The larger of the two - and indeed the largest anywhere in Overseas France - is located in Kourou.

CEOG is an innovative multi-megawatt power plant designed to produce reliable and clean electricity. CEOG will provide cheaper and firm power all year long, day and night, to 10 000 homes in Western Guiana. Combining a photovoltaic plant and mass storage of energy in the form of hydrogen, CEOG is the alternative to a classic diesel power plant.

French Western Guiana Solar PV Park is a 55MW solar PV power project. It is planned in Saint-Laurent-du-Maroni, French Guiana. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the under construction stage.

Find solar panel locations in French Guiana through our French Guiana solar farm map. Analyze the main characteristics of solar farms in this country, sort these by capacity, panels area and landscape area. Discover the largest solar farms in French Guiana and find solar farms near you.

international shopping platform in French Guiana. FREE Delivery Across French Guiana. EASY Returns & Exchange.

Solar PV: Solar resource potential has been divided into seven classes, each representing a range of annual PV output per unit of capacity (kWh/kWp/yr). The bar chart shows the proportion of a country's land area in each of these classes and the global distribution of land area across the classes (for comparison).
