Ideal Locations for Solar & Batteries Projects in Jamaica. In Jamaica, several cities and regions have become popular for installing solar panels and battery storage systems due to their unique characteristics and the incentives available. Kingston, the capital and largest city, is a prime location for solar installations.

Solar panels are made of photovoltaic cells that convert the sun's energy into electricity. Photovoltaic cells are sandwiched between layers of semiconducting materials such as silicon. Each layer has different electronic properties that energize when hit by photons from sunlight, creating an electric field.

Over the years, Magen has grown its activity into 3 segments: Solar solutions, Pool water treatment systems and corrosive resistant heat exchangers. Today Magen is active in all 5 continents and keeps growing its distribution channels which are currently based on international distributors and daughter companies in the US and Germany.
