

Freudenberg battery power systems llc Iraq

Our battery systems are up to the demands of heavy-duty markets and perform in the toughest conditions. The modular plug-and-play systems offer maximum flexibility in product design and implementation, as our battery systems and ...

Freudenberg e-Power Systems battery technology focuses on the development, production, assembly, and field service of complete battery systems for applications in the medium to heavy-duty truck, bus, marine, mining and specialty applications.

The unique flexible and modular design of our battery systems makes them suitable for a wide range of applications, backed by an industry-leading warranty. We are also pioneering the advances in fuel cell technology, designing systems that can run on hydrogen, methanol, or liquefied natural gas.

Freudenberg is acquiring 49.9 percent of the outstanding membership units of the joint venture from partner MBP Investors, a Townsend Ventures affiliate, and will thus become the sole owner of XALT Energy, LLC.

...

Freudenberg e-Power Systems is a leading supplier of lithium-ion cell technology. Our reliable and long-lasting power cells are suitable for a wide range of heavy-duty applications, such as trucks, buses, maritime, construction, agriculture, ...

Freudenberg is acquiring 49.9 percent of the outstanding membership units of the joint venture from partner MBP Investors, a Townsend Ventures affiliate, and will thus become the sole owner of XALT Energy, LLC. The parties have agreed not to disclose the purchase price.

As one of the leading suppliers of emission-neutral energy systems for heavy-duty applications, we offer our customers long-standing expertise and unbeatable know-how. That's because we combine the best of both worlds by offering both battery and fuel cell systems.

Our battery systems are up to the demands of heavy-duty markets and perform in the toughest conditions. The modular plug-and-play systems offer maximum flexibility in product design and implementation, as our battery systems and power cells can ...
