

What are the main sources of energy in Gabon?

(October 2009) Energy in Gabon comes from two main sources, fossil-fuels and hydroelectricity. Gabon also relies heavily on oil for its export revenues, exporting both crude oil and petroleum. In terms of its oil reserves, the country is one of the richest in sub-Saharan Africa, ranking 5th after Nigeria, Angola, Sudan, South Sudan, and Uganda.

Is biomass a source of electricity in Gabon?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Gabon: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

What type of electricity does Gabon use?

Renewable electricity here is the sum of hydropower, wind, solar, geothermal, modern biomass and wave and tidal power. Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Gabon: How much of the country's electricity comes from nuclear power?

Is Gabon a member of OPEC?

Gabon, a former OPEC member (1975-1994) that rejoined in 2016, is the sixth-largest oil producer in sub-Saharan Africa. The first national oil company was the Soci t  Nationale Petroli re Gabonaise but it was disbanded in 1987. The government of Gabon controls all petroleum and mineral rights within the state.
