

Alexander Battery Technologies is ready to support your next battery-powered device. Because of these factors, we can move from initial request from the customer to providing them with concepts in under 3 months. Coupled with our Sample Submission Form that we use to confirm compliance with specification on part submission, and to highlight ...

Alexander Battery Technologies offers lithium-ion batteries designed to meet the stringent requirements of respiratory care applications, providing uninterrupted power and peace of mind to patients and healthcare providers. Autoclavable & ...

ABT has a proven track record of designing and manufacturing batteries for medical devices, including bone saws, respirators, and various other Class 2A, 2B, and 3 devices. With extensive experience as a hospital equipment battery manufacturer, our state-of-the-art facilities are equipped to produce high-quality, reliable battery packs at scale.

At Alexander Battery Technologies, we believe that a strong commercial partnership, coupled with long-term reliable demand are the two key enablers for initiating a successful BaaS business model together. In some ...

Alexander Battery Technologies offers custom-built battery packs for cordless drills that deliver ample power and endurance, ensuring efficient drilling operations in any setting. Impact Drivers Impact Drivers provide high torque and fast rotational speeds, making them ideal for driving screws and bolts in construction and automotive ...

Alexander Battery Technologies GmbH DACH office Hanauer Landstraße 287, Frankfurt, Germany, 60314. Call: +44 (0) 191 587 2787. Email: [sales@alexandertechnologies](mailto:sales@alexandertechnologies) . Our Head Office: Alexander Technologies Europe Limited 2 Doxford Drive, South West Industrial Estate, Peterlee, SR8 2RL

Your Lithium Polymer Battery Manufacturer. It's an exciting time in the polymer market with brand new European-based sources coming online to shorten supply chains and high power applications such as power tools and Electric Vehicles (EV) pushing the envelope of what can be achieved by the OEMs. At Alexander Battery Technologies, we bring long-term manufacturing ...

At Alexander Battery Technologies our engineers keep their finger on the pulse in respect of new developments in heat management of high-power battery systems, we work closely with our customers in determining the right solution for the application, technology is advancing rapidly and with new development printed electronics thin film heaters ...

At Alexander Battery Technologies, we find growth incredibly exciting and we love all of the challenges and

positive changes that come with it. Our company has been producing battery packs for our customers for over forty years. This legacy gives us the fundamental foundations of experience and expertise needed to deliver design-to-manufacture ...

With decades of experience in manufacturing battery packs for consumer-focused products, we are well versed in the unique challenges that are presented, and the considerations required, during the process of designing a suitable battery pack.. We design bespoke battery packs with fast charging times and longer life cycles for any power requirement to ensure our customers" ...

Owen's expertise in "right first time" engineering ensures that the custom battery solutions he helps design are both effective and efficient. With hands-on experience in the automotive, electronics, and injection moulding sectors, Owen has been instrumental in driving innovation at Alexander Battery Technologies since 2018.

Global battery manufacturer Alexander Battery Technologies (ABT) is to recruit and heavily invest in its UK and overseas sites as it embarks on an ambitious growth strategy to meet rising worldwide demand. The Peterlee based company, which designs and manufactures customised rechargeable battery packs for a range of industries, has enjoyed ...

With decades of experience in manufacturing battery packs for consumer-focused products, we are well versed in the unique challenges that are presented, and the considerations required, during the process of designing a suitable battery ...

With 40 years of experience and state-of-the-art production capabilities, Alexander Battery Technologies supports OEMs to bring complex lithium-ion battery packs and battery chargers to market for applications including e ...

Skilled Workforce and Cutting-Edge Technology: Alexander Battery Technologies leverages the UK's strong engineering talent pool, ensuring access to a skilled workforce and advanced battery technology. Their recent investments in new R& D labs and state-of-the-art production facilities including a world-first laser welder further solidify their ...

Alexander Battery Technologies, a designer and manufacturer of custom lithium battery packs, today announced a breakthrough for the battery assembly industry with the installation of the world's most advanced laser welding machine at its factory in Peterlee, UK.. The EV Flex laser welder, an IPG Photonics product, uses machine vision technology and ...

Alexander Battery Technologies emphasizes transparency by inviting customers to inspect manufacturing facilities, fostering confidence in the production process. Incorporating quality principles ensures swift validation and certification of battery packs, aligning with the stringent standards prevalent in industries like automotive. ...

At Alexander Battery Technologies, we understand the intricate challenges faced by companies pioneering in the field of robotics. From achieving the desired power-to-weight ratio and form factor to ensuring reliable performance with the unique operational and charging requirements of each application, there are many complexities we will help you to address.

The laser welder not only enhances production quality but also reinforces Alexander Battery Technologies' vision of becoming the market leader in custom battery pack reliability and ...

Alexander Battery Technologies, the specialist in customisable lithium-ion and NiMH battery packs and chargers, has achieved yet another highly successful year, backed by substantial investment in both people and ...

At Alexander Battery Technologies, we understand the intricate challenges faced by companies pioneering in the field of robotics. From achieving the desired power-to-weight ratio and form factor to ensuring reliable performance with ...

Alexander Battery Technologies excels in developing high-capacity battery packs that deliver exceptional energy density and rapid charging capabilities, empowering EV manufacturers to push the boundaries of performance and ...

Industry-leading UK-based custom battery pack manufacturer Alexander Battery Technologies will be exhibiting at The Battery Tech Expo on the 25th of April at stand B42. Those who visit the stand at Silverstone will ...
