

What are the main sources of energy in Gabon?

(October 2009) Energy in Gabon comes from two main sources, fossil-fuels and hydroelectricity. Gabon also relies heavily on oil for its export revenues, exporting both crude oil and petroleum. In terms its oil reserves, the country is one of the richest in sub-Saharan Africa, ranking 5th after Nigeria, Angola, Sudan, South Sudan, and Uganda.

How much energy does Gabon use?

Table: Gabon's Final Consumption of Different Energy Sources 2000-2018 During the year 2016, Gabon's imported electricity's capacity was about 344 million kWh, with no export capacity at all, while the country's exported crude oil in the year 2017 was approximately 214,200 barrels/day .

Does Gabon have a hydro generating potential?

According to the African Development Bank (ADB), Gabon has a hydro generating potential that ranges between 5000-6000 MW, yet as many other countries in the region, that potential is still far from being met to its fullest . Table: Gabon's Total Hydro Installed Capacity in MW 2009-2018

Why is Gabon a good country?

Gabon also relies heavily on oil for its export revenues, exporting both crude oil and petroleum. In terms its oil reserves, the country is one of the richest in sub-Saharan Africa, ranking 5th after Nigeria, Angola, Sudan, South Sudan, and Uganda. Renewable energy in the form of solar power is virtually nonexistent.

What type of electricity does Gabon use?

Renewable electricity here is the sum of hydropower, wind, solar, geothermal, modern biomass and wave and tidal power. Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Gabon: How much of the country's electricity comes from nuclear power?

Who controls the oil industry in Gabon?

The government of Gabon controls all petroleum and mineral rights within the state. In 2011 a presidential decree created the Gabon Oil Company (GOC). This new entity works in partnership with international companies operating in Gabon and operates two fields: Obangue and Remboue.
