

Geli energy Ghana

Who is growing Energy Labs (Geli)?

[Irvine, United States, August 6, 2020] Qcells, a renowned total energy solutions provider in solar cell and module, energy storage, downstream project business and energy retail, announced today that it has signed an agreement to acquire a 100% stake in San Francisco-based energy storage solutions company Growing Energy Labs, Inc. (Geli).

Who owns Geli solar?

GELI's new owner since the end of 2020 is vertically-integrated solar PV company Q CELLS. Image: Q CELLS via Facebook. Battery storage systems can deliver multiple services and provide customers and sites with backup power, but their value in doing so remains largely dependent on "highly sophisticated" software.

What is Geli EMS?

Qcells' GELI EMS accelerates your time to market and drives additional project value through our end-to-end software solution built to design, automate and manage energy storage solutions. Geli ESyst is an online tool for the analysis and design of investment-grade energy storage projects.

Is Geli a pure-play software company?

California-headquartered GELI was notable in the industry for being one of the few pure-play software companies in the energy storage space, focusing on the commercial and industrial (C&I) market.

Why did Q Cells buy Geli?

A Q Cells spokesperson said this acquisition is its first move in the US market, after selling integrated storage solutions in Europe and Australia. The company intends to use Geli's artificial intelligence technology to help design, automate, and manage its digital energy storage solutions.

What is Geli esyst?

Geli ESyst is an online tool for the analysis and design of investment-grade energy storage projects. The Geli Energy Operating System (Geli EOS) enables easy integration and intelligent operation of any energy storage system from residential to grid scale.
