

Gibraltar Hawker Energysys

Who makes Hawker batteries?

Explore Hawker's Batteries. Premier combat and tactical vehicle batteries for a wide range of military vehicles and equipment. Manufactured by EnerSys.

What is a Hawker battery?

Some topics include: Features and benefits, inspection, analyzers, testing, charging, storage and more Hawker batteries from EnerSys are the premier combat and tactical vehicle batteries, providing a distinct advantage to our fighting forces.

Are Hawker batteries safe?

They are certified non-spillable and meet Department of Transportation DOT hazardous material requirements. Hawker batteries have a 30-month shelf life and a 36-month warranty backed by superior direct customer support. EnerSys 2024.

Are Hawker batteries maintenance free?

The cells have an enhanced capacity compared to most other maintenance free batteries on the market. In combination with the high frequency Hawker Life plus allowing a short charging time in 8 hours at 60% DOD and in 12 hours at 80% DOD, the full benefit of its high performance can be used in an optimized way.

What is Hawker evolution?

The Hawker evolution is a new valve regulated gas recombination battery with gelled electrolyte, accepting up to 80% DOD/C5. This range is suitable for use in materials handling equipment in low to medium duty applications. The cells have an enhanced capacity compared to most other maintenance free batteries on the market.

How long does a Hawker evolution battery take to charge?

Hawker has developed for their high frequency chargers, Hawker Lifeplus, a specially designed charging regime, which ensures a safe and gentle full charge of the Hawker evolution battery with a low charging factor. With these chargers, charging time can be reduced to 8 hours with 60% DOD.

Hawker's Safety Plus Nickel Cadmium Aviation Batteries. For over 70 years, Hawker Safety Plus Ni-Cd batteries have been manufactured using Sinter/Sinter electrodes designed to deliver high power and/or high energy density. Our batteries have a long service life with unrivalled reliability thanks to Hawker technical expertise. Request a Quote

When used in combination with EnerSys's High-Frequency chargers - Evolution's Batteries can be recharged in just 8 hours at 60% Depth of Discharge (DOD), or 12 hours at 80% DOD/C5. ... Global Support EnerSys is the world's largest industrial battery manufacturer and we are dedicated to being the best. Our strategically located manufacturing plants are efficient and responsive with a culture of continuous improvement and added value for our business partners EnerSys has an enviable position in technology ...

The Hawker's ArmaSafe(TM) L-Series utilises the proven EnerSys Thin Plate Pure Lead (TPPL) valve regulated technology, to meet the diverse and demanding energy storage needs of the modern world. Today over 2 million batteries have been installed on a wide range of combat and tactical vehicles throughout the world.

Hawker's sealed lead acid batteries, manufactured by EnerSys, the global leader in energy storage solutions, have been at the forefront of innovation and technical excellence for more than 40 years. They have evolved and advanced to deliver the improved power and performance required by successive generations of aircraft.

Wherever you do business, EnerSys can support you with motive power energy. The Hawker's branded battery range, matched chargers and systems provide trouble free performance under the most demanding service conditions. Our strategically located manufacturing plants are efficient and responsive with a culture of
