

This dataset is an extract of OpenStreetMap data for New Caledonia in a GIS-friendly format. The OSM data has been split into separate layers based on themes (buildings, roads, points of interest, etc), and it comes bundled with a QGIS project and styles, to help you get started with using the data in your maps.

The project authorisation was announced last week by Christopher Gyges, minister at the government of New Caledonia in charge of the energy transition. To be installed in the commune of Boulouparis, the battery storage system is set to become the largest one in France, storing electricity produced by solar farms in the area.

Soviet military topographic mapping of New Caledonia is available at the following scale: 1:1,000,000 (5 sheets, complete coverage, published 1964-1973). This product is available in print, digital raster and digital vector GIS formats from East View Geospatial.

Download vector layers and ready-to-go GIS projects based on OSM: ESRI Shape, GeoPackage, Geodatabase, GeoJSON, KML, CSV, TAB, PBF, XML, SQL formats for QGIS, ArcGIS, Mapinfo, Excel, PostgreSQL, PostGIS, Google Earth.

In partnership with ISEE New Caledonia, SDD presents PopGIS3 Nouvelle-Calédonie: a powerful mapping tool for exploring data from the New Caledonia 2019 Population and Housing Census. It allows users without GIS experience to make and share maps at a range of geographic levels.
